# **Day-8-Report** **(Work Summary)**

## **INTERNSHIP at AkashTechnoLabs**

### **Day-8: What we learnt?**

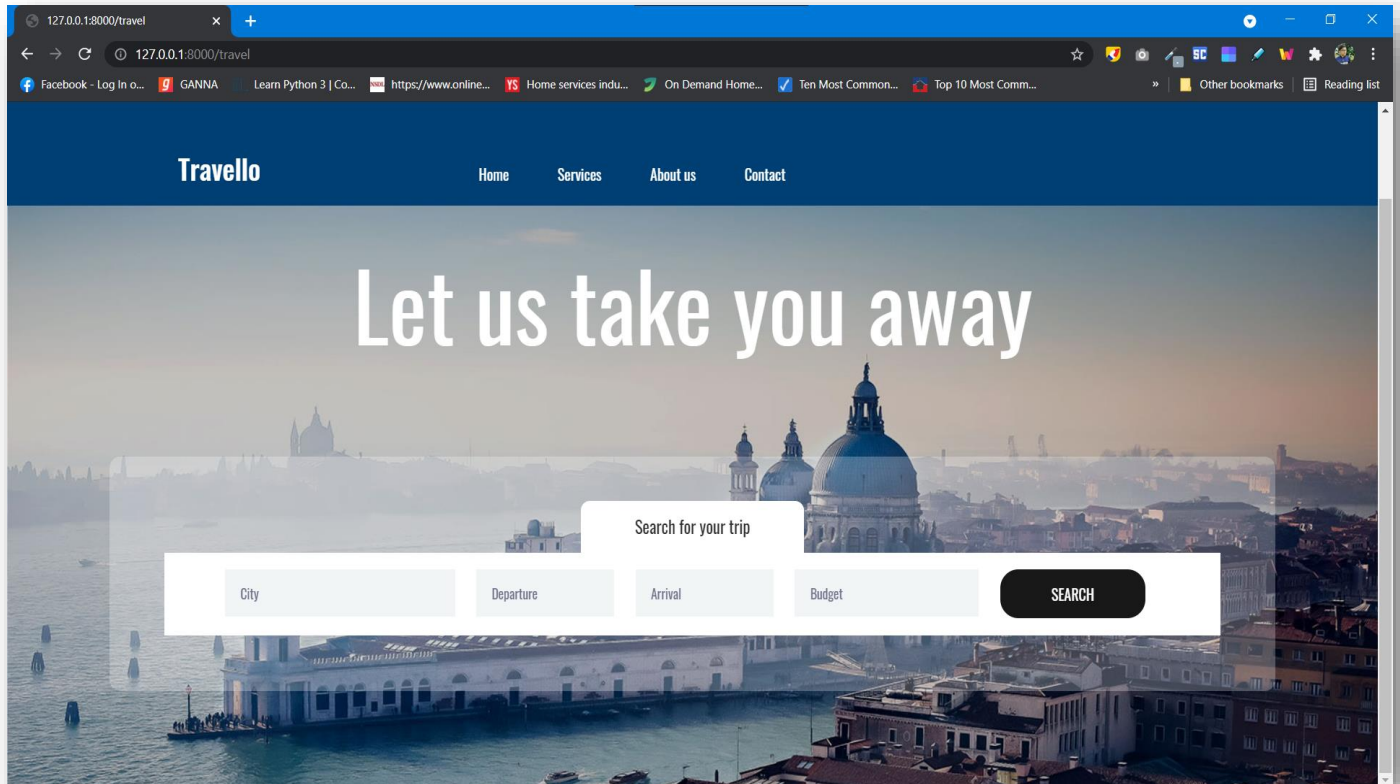

- ✓ In today's session we learned how to navigate through multiple pages using various urls and its associated functions of views.py.
- ✓ We also learned how to setup path for templates and static file which are most useful features of Django.
- ✓ We import images for static folder using different syntax of jinja2 than regular html syntax for importing CSS, JS, Images files into html page.
